Prospero Markets aims to open and close markets as close to the posted trading hours as possible, however the lack of liquidity at or around market open and close for any CFD instrument can impede execution and price delivery. Prospero Markets may delay market open or bring forward market close on specific instruments in an effort to protect clients from quoted prices or executions that are not representative of the true market price.

Due to changes in different time zones, trading times may be affected. This product schedule is for reference only. Please refer to the Meta Trader Platform for accurate trading times.
